    🗛 Translate text

Use Natural Language Understanding (NLU) to detect the language or classify the sentiment of any piece of text you have. You can also classify your text documents by customizing a classification model over your dataset. [Learn more about custom text classification.](#)

Analyze sentiment and mine opinions

Detect positive, negative and neutral sentiment in text. Get more insights by mining opinions.

Try it out

Detect language

Evaluate text and detect a wide range of languages and variant dialects.

Try it out

Custom text classification

Train a classification model to classify text using your own data.
