Select additional features

By default, Azure AI service for Language comes with several pre-built capabilities like sentiment analysis, key phrase extraction, pre-built question answering, etc. Some customizable features below require additional services like Azure AI Search, Blob storage, etc. to be provisioned as well. Select the custom features you want to enable as part of your Language service.

Default features

- ✅ Sentiment analysis
- ✅ Key phrase extraction
- ✅ Pre-built question answering
- ✅ Conversational language understanding
- ✅ Named entity recognition
- ✅ Text Summarization
- ✅ Text analytics for Health

Custom features

Custom question answering

Use this feature to answer user's questions over your data corpus. Requires Azure AI Search. Learn more.

Select
